VOL. 36. BLOOMSBURG, PA. THURSDAY, MARCH 28, 1901 NO. 13

SLOAN—McFARLAND.

Morris R. Sloan of Lebanon, son of the late M. C. Sloan of this town, was married to Miss Emily McFarland of Lebanon on Thursday last. His sisters, Mrs. W. C. McKinney of Bloomsburg and Mrs. C. C. Evans of Berwick, and his brother, W. Clark Sloan, attended the wedding. Morris has a host of friends here who wish him much happiness. The Lebanon Daily *Times* gives the following account of the wedding:

"The wedding was celebrated at 7:30 o'clock, at the home of the bride's father, George P. McFarland, Ninth and Church streets, and although quiet, it was a pretty and tasteful event. The parlors were profusely decorated with palms and carnations. The ceremony was performed by Rev. J. Mitchell Page, rector of St. Luke's Episcopal church. The maid of honor was Miss Elizabeth Light, of this city, and F. B. Miller, of Reading, formerly of Lebanon, was best man. James Eckenroth, organist of St. Mary's Catholic Church, presided at the piano while a quartet composed of Misses Cora Hartman and Mary Kreider, and Edward Sholly and J. Wm. McAdam furnished the vocal music. The ushers were W. Clark Sloan, brother of the groom and J. L. Haehulen, both of this city.

The bride was attired in a dress of mouslin, over taffeta silk, relieved with Duchess lace, and she carried a bouquet of bridal roses. The maid of honor wore a gown of pink silk mouslin, and carried pink carnations. Both looked charming.

A reception followed the ceremony, Frank Heisey having been the caterer.

The bride was the recipient of an assortment of presents that represented rare value and beauty.

She is an accomplished young lady."

HOUSE BURNED.

The residence of C. R. Richart, on North Iron Street was discovered to be on fire Tuesday morning about two o'clock, but the flames had gained such headway that it was impossible to stay them. The fire companies responded to the alarm quickly, but not in time to save the building. The house was a story and a half frame, and was owned and occupied by Mr. Richart and family. They were preparing to move to Williamsport, and all their household goods were packed ready for shipment. Mrs. Richart and her daughter had gone to Williamsport on Monday and Mr. Richart remained here to look after the goods. He was in the house until about eleven o'clock, and then went to a neighbor's to sleep. Three hours later the fire broke out. The only fire in the house was in the kitchen range, and that had nearly burned out at 9 o'clock. The fire seems to have started in a small out-kitchen, and can be accounted for only by the theory that it was intentionally done. The household goods were all destroyed, and the loss to Mr. Richart will reach nearly $1500 with partial insurance.

Y. M. C. A. Notes.

The meeting at the Y. M. C. A. building next Sunday afternoon at 2:30 will be addressed by Rev. M. E. McLinn. All men are invited to be present.

A very helpful and inspiring feature of these meetings is the opening service of song which always begins promptly on time and continues for twenty minutes. No one should fail to be present for the first number. If possible, don't be late.

An hour of music and funny stories is planned for the boys in the Y. M. C. A. on next Friday evening, from 7 to 8 o'clock. Mr. Roy Keller will officiate. All boys from 12 to 16 are invited. Only those who are there promptly on time will be sure of a seat. Come out boys bright and early and you will have a nice time.

There are services of song and prayer in the parlor each evening this week. All men are cordially invited.

The Trolley Road.

A large force of men are at work grading for the new trolley road, between here and Almedia. Eight cars of the latest pattern have been ordered from the J. G. Brill Co. of Philadelphia. They are to have double trucks, and will be thirty five feet long, and are so constructed as to be made either closed cars for winter or open for summer. It will not be many months before the line will be completed.

DR. GEORGE W. MIFFLIN.

The death of Dr. George W. Mifflin occurred at his home on West Main street on Saturday morning last at 10:40 o'clock. He had been ill for several months, and his death was not unexpected.

Deceased was born at Wyoming, Del., on Dec. 30th, 1834, and was aged sixty-six years. He was raised on his father's farm and at the age of sixteen began the study of dentistry which he practiced in Philadelphia until the Civil War broke out when he enlisted in the army where he served three years. Three years after the close of the war he came to Northumberland county where he married his present wife. He kept hotel at Paxinos for twenty-two years and from there he moved to Bloomsburg, where for the past seven years he has led a retired life.

For several years past his health has been failing. He is survived by his wife, and one son, Warner, of the firm of Mifflin & Terwilliger, of this town.

The funeral was held on Tuesday morning at 7.15 o'clock, and the remains were taken on the Pennsylvania railroad to Paxinos, his old home, for interment.

SUPREME COURT CASES.

Cases from Columbia County will be heard in the Supreme Court at Philadelphia during the week beginning April 15th. There are three on the list from here, as follows:

Wainwright vs. McCready Bros., action on a mortgage. J. G. Freeze and Geo. E. Elwell, counsel for plaintiff, W. H. Rhawn for defendant. Appeal by defendant.

General Fire Extinguisher Co. vs. Magee Carpet Works, mechanics' lien. Grant Herring for plaintiff, G. M. Tustin and Charles H. Wells for defendant. Appeal by defendant.

Commonwealth of Pennsylvania ex relatione J. G. Harman District Attorney, vs. William Krickbaum. Herring and Harman for plaintiff, Rhawn, Zarr and Hinckley for defendant. Appeal by defendant.

Litzko was on His Muscle.

Constable John Langdon, of Centralia, took John Litzko to the Bloomsburg jail where he will remain until the next session of court unless he can furnish bail. John boarded with Mrs. M. Forbes at Midvalley No. 2. Another boarder was named John Washkee. Litzko went to the house the other day to thrash Washkee, and the boarding mistress locked him out. He broke a window and gained admittance and then administered a severe beating to the woman for not admitting him. He left her in an unconscious condition. Then Washkee was assaulted and badly done up. Mrs. Forbes' husband was summoned and had a warrant issued for Litzko's arrest. Constable Langdon served the papers. John Subonis attempted to stab the officer but was promptly disarmed. Mrs. Forbes is in a serious condition.—*Ashland Advocate.*

Alvin Creveling died at his home on East Third street last Friday afternoon, aged 37 years and one month. He was a son of W. P. Creveling of Light Street, and was born and raised there. The family moved to Bloomsburg about two years ago. Alvin learned the printing trade in the *Republican* office, and followed that calling here and in the city until his health required him to seek climes where he hoped to be benefitted. He spent some time in the west and south, but came home a few weeks ago, in a very feeble condition. His disease was consumption. He was an exemplary young man, and had many friends. His parents, three brothers and three sisters survive him.

The funeral was held on Monday afternoon at one o'clock, and the burial took place in Almedia Cemetery.

J. Lee Harman has received his new automatic piano player, called the orchestral, and has already become quite an expert in handling it. It is an organ and piano player combined, so arranged that either one or both may be used. The selection of music made by Mr. and Mrs. Harman is a very choice one, including many pieces by such eminent composers as Mozart, Liszt, Mendelssohn, Chopin, Paderewski, and many others. It is a whole orchestra in itself, and with it the operator is able to give a most enjoyable musical entertainment. The accuracy and skill with which these instruments execute the most difficult compositions is equalled by very few pianists.

ISSUE OF $500,000

FIRST MORTGAGE 6 PER CENT. 10-YEAR GOLD RAILROAD BONDS

—OF THE—

CANANEA CONSOLIDATED COPPER CO.

Dated April 1st, 1901. Due April 1st, 1911.

(Redeemable After 5 Years at 106 and Interest Upon 60 Days Notice.)

Interest Payable April 1st and October 1st at the Guaranty Trust Co., Mutual Life Building, New York, N. Y., or at the Office of the Company, in the City of New York.

GUARANTY TRUST CO., OF NEW YORK, Trustee.

These bonds are coupon bonds of Five Hundred ($500.00) Dollars each, with privilege of registration of principal.

Both principal and interest are payable in gold coin of the United States of the present standard of weight and fineness, without deduction for any tax or taxes which the railroad company may be required to pay or retain therefrom under any present or future law of the United States of America, the Republic of Mexico, or of any State, County or Municipality therein.

This issue of bonds is secured by a mortgage upon all the properties, rights, franchises and buildings of the Cananea Consolidated Copper Company's Railroad, and is guaranteed, both principal and interest, by the Greene Consolidated Copper Company, which owns all of the stock and property of the Cananea Consolidated Copper Company, and will amount to an indebtedness of $12,500 per mile of main line.

The Company offers these bonds for sale at par and accrued interest, payable upon the issuance of negotiable certificates, which will be exchangeable for bonds when engraved.

Subscriptions are now open, the Company reserving the right to close without notice. The right is also reserved to reject applications, and to allot smaller amounts than those applied for.

Copies of the mortgage, Counsel's opinion, etc., may be seen at the Company's Office.

We recommend this as a very desirable investment.

GREENE CONSOLIDATED COPPER CO.

377 and 379 Broadway, New York.

—o—

Having investigated the properties of the Cananea Consolidated Copper Company, and the Greene Consolidated Copper Company, we consider the first mortgage bonds, above mentioned and described, a good, safe 6 per cent. investment, made doubly secure by the guarantee of the Greene Consolidated Copper Company. In the judgment of the undersigned, the value of the property guaranteeing these bonds is safely fixed at many millions of dollars.

Parties desiring further information, or to make subscription to these bonds, can apply to C. C. Peacock, Postoffice Building, or E. B. Tustin, First National Bank Building, Bloomsburg, Pa. Signed,

The Philadelphia *Times* is offering a free trip to the Pan American Exposition to four teachers and four pupils in the State outside of the city who shall receive the highest number of votes by coupons cut from that paper. Among those who are striving for the prize are Miss Annie Fox and Miss Jane Henrie, daughter of Prothonotary Henrie. Although they entered the race quite late they are gradually pulling toward the front, and the count as stated in last Sunday's *Times* put Miss Fox number 8 in the list of teachers, and Miss Henrie No. 9 in the list of pupils. If there are any readers of the *Times* in the town or county who are not cutting out the coupons, we would suggest that they do so, and send them to Prothonotary Henrie. There is no reason why Bloomsburg should not capture this prize for one of its popular teachers, and one of its bright pupils. Give them a lift with your coupons.

William B. Taylor has secured a lease on lands in Lycoming County, where valuable ore is found in paying quantities. He has samples of ore taken from these premises that are rich in mineral. He also has certificates of analysis showing over 33 per cent of copper, and nearly 4 ounces of silver per ton, while other samples of ore show 9 ounces of silver per ton and a trace of gold. Mr. Taylor desires to sell a one-fourth interest in his lease, which he values at $2,000. The money will be used in developing the property, and from the analysis it would seem that there can be no doubt but what it will prove a paying investment. The one fourth interest will be sold as desired, either as a whole, or in portions to suit purchasers.

Died.

ROMICK:—Died in Centre Township on March 17th, Mrs. Susan Romick, aged 75 years.

"Picturesque Bloomsburg" has been warmly received and highly praised as a fine specimen of the printer's art. Many of the books have been sold, and orders are being received daily. By an unavoidable delay the stiff covered copies have not yet come from the bindery, but are expected very soon. As only a sufficient number of this style will be bound to fill orders, it will be necessary for all who wish a stiff binding to leave orders in advance. The prices are $1.00 in silk cloth, and 75 cents in cardboard binding.

YOUR

SPRING SUIT!

Is the topic of our thoughts as well as yours just now. In fact, we've been thinking about it for some time, and we've been getting ready for you. The result is, we're showing to-day the finest line of high grade custom tailor made suits you or anybody else ever saw in a tailor shop or out of one.

Our Clothing Is Not the Ordinary Ready-Made, But Made Especially For Us.

It is different from other clothing. We don't buy what the generality of manufacturers make—the clothes that are turned out like shingle nails—the kind most dealers buy—not we; we select our own styles and patterns and have our suits made to our order. We dictate what shall go into our suits from the inside linings to the outside buttons. We know what we are getting,

And You Know What You Are Getting When You Buy of Us.

That's why there's more style, more character, more fit, fashion and finish in our $15.00 suit than in the merchant tailor's $30.00 suit. Our line this year is the finest we ever displayed.

Fine Fabrics, Choice Patterns, Excellent Workmanship, Up-to-Date Styles.

Our best and most desirable suits range in price from $8.00 to $15.00, and whichever one of these prices you pay, you're saving about half on your tailor bills and getting a better looking suit in every way than you ever got before for the money.

The Leader Department Store.

Too early to talk of Carpets? Not a bit! 'Tis true the weather man says March is a winter month, but April 1st is only 30 days off, and April 1st means moving to many people. Always to the front, our spring offerings this year are better than ever before.

15 Cts.

A yard wide carpet, good enough for a room not much used.

25 Cts.

Very much better. Will stand a good deal of hard wear.

50 Cts.

A heavy half wool filling, artistic patterns and tasty designs.

75 Cts.

Extra heavy all wool Carpet. New lines of private designs.

And Our Leader, Wool Velvet, Made, Laid and Lined, 90 Cents.

Ask our competitors to match it.

Paper Patterns, 10c.

We are sole handlers of the New Idea—paper patterns. What's the use of your paying 20c for a pattern we will sell you for 10c? Come in and get a fashion sheet—free.

New Shoe Department.

We can sell lower than a regular shoe store, for we pay no rent. That means 10 per cent. at least. 10 per cent. means money in your pocket.

Tailoring.

Just a word. We'll make you a good suit, to order, for

$15.00.

If you want to pay $20 00 to some one else, that's not our fault.

Drugs.

We carry a full line of the standard drugs and remedies.

Perfumes, of course!

OLD PEOPLE

Have a charm of their own when they are not weak and feeble, but hale and hearty, enjoying the sports and pleasures of youth though they cannot participate in them. The whole secret of a sturdy old age is this: Keep the stomach and organs of digestion and nutrition in perfect order. The young man who does not think of his stomach will be made to think of it as he grows old. It is the "weak" stomach, incapable of supplying the adequate nutrition for the body, which causes the weakness and feebleness of old age.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It makes the "weak" stomach strong, and so enables the body to be fully nourished and strengthened by the food which is eaten.

"I suffered for six years with constipation and indigestion, during which time I employed several physicians, but they could not reach my case," writes Mr. G. Popplewell, of Eureka Springs, Carroll Co., Ark. "I felt that there was no help for me, could not retain food on my stomach; had vertigo and would fall helpless to the floor. Two years ago I commenced taking Doctor Pierce's Golden Medical Discovery and little 'Pellets,' and improved from the start. After taking twelve bottles of the 'Discovery' I was able to do light work, and have been improving ever since. I am now in good health for one of my age—65 years. I owe it all to Dr. Pierce's medicines."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

Seaboard Air Line Railway.

TO PINEHURST, N. C., CAMDEN, S. C., AND ALL FLORIDA POINTS.

The FLORIDA AND METROPOLITAN LIMITED and FLORIDA AND ATLANTIC FAST MAIL are the finest and fastest trains operated between New York and the famous health resorts of the Carolinas and Florida.

PINEHURST, N. C. is a model New England town, nestled among the pine clad sand hills of the old North State, and only eighteen hours from New York, via SEABOARD AIR LINE RAILWAY. It is one of the healthiest and most enjoyable winter resorts in America, with the finest and most palatial hotels and best eighteen hole golf links in the South. Through sleeping-cars from Washington, D. C. Passengers from north thereof can take through car by passing from New York Sleeper to Washington and Pinehurst Sleeping-Car at Washington.

CAMDEN, S. C. is one of the nearest resorts for northern tourists where they are secure from the cold climate of Northern winters. Besides its fame as a healthful and attractive winter resort, the historic interests connected with the town and locality are most quaint and interesting.

THE HEALTH AND PLEASURE RESORTS OF FLORIDA are too well known to need more than a passing allusion. There you find the most luxurious hotels and most attractive and popular winter resorts in America.

THE SEABOARD AIR LINE Railway is positively the shortest and quickest route operating solid vestibuled limited trains, with Pullman's latest improved service, including Dining, Observation and Pullman Compartment Cars, between New York and Florida.

For information and tickets call on or address Charles L. Longsdorf, New England Passenger Agent, 306 Washington St, Boston, Mass.; J. C. Horton, Eastern Passenger Agent, 1206 Broadway, New York; W. MILEAGE TICKETS REDUCED.

One thousand mile tickets, good over the whole system of the Seaboard Air Line Railway, including the State of Florida, are sold at $25.00, previously sold in Florida at $30.00, and are honored between Washington and Richmond, and by the Baltimore Steam Packet Company between Baltimore and Portsmouth, over "Bay Line." 3-7-4t

Let me urge those who want a vine for the bay-window or parlor, or to train over a screen, to procure an English ivey in the spring. I would rather have a fine specimen of it than a score of the plants usually found in window-garden collections. It is a shame that such a plant should have been crowded out by new-comers having but few of its merits.—Eben E. Rexford, in the March Ladies' Home Journal.

CASTORIA

THE CZAR IS DOOMED

Nihilist Plots Thicken About Him.

RUSSIA'S RULER IN MORTAL FEAR

Explosives Said to Be Secreted In the Most Secret Chambers of the Royal Palace—Many Wild Stories.

PARIS, March 27.—News of the nihilist plots that are thickening about the czar has caused consternation here.

Nihilists say that the full gravity of the situation in Russia is not fully set out even in the mail dispatches.

The czar knows he is doomed. He has collapsed physically. His mental condition is pitiable. Half the time he is mad and pleads with his ministers like a child to save him from assassins whom he sees hiding in every corner.

The secret police are powerless to cope with the plotters. Since the discovery of the mine of bombs under his council chamber at the Tzarkoe-Selo palace the czar has been afraid to trust his advisers, even M. Robiedonostzeff, the procurator of the holy synod, his most intimate friend and confidant.

His physicians have advised him to take a cruise on the high seas in his yacht. This is not so much to cure his nervousness as to get him away from plotters.

He recalls the recent assassination of his minister of education and the attempt on the life of the procurator and believes that he cannot escape even by flight. In despair, he sits tremblingly awaiting his doom.

The nihilists laugh, so confident are they of success, and say that the czar is hopelessly enmeshed.

They look upon the discovery of the mine under the Tzarkoe-Selo palace as a little thing, for they say many others are planted in the most secret chambers of

THE CZAR.

the royal mansions, where no secret police can possibly find them and where they will eventually destroy the tyrant.

They hint at explosives on the imperial yacht.

The czar cannot sleep. He wakes in the night crying for help.

He fears to eat, and an expert on poisons eats first of every dish presented.

Ninety Miles For Five Cents.

NEW YORK, March 26.—An eight track trolley line between Jersey City and Philadelphia, with cars propelled at the rate of 60 miles an hour and a 5 cent fare from city line to city line, is the ultimate plan of Albert L. Johnson, the railroad contractor. Mr. Johnson announced yesterday at his office in the Empire building that he had ordered sufficient steel rails to lay 50 miles of trolley track for his new line, the Philadelphia, Trenton and Lehigh Valley railroad. "The new railroad is not merely projected," said Mr. Johnson, "but it is being actually constructed. I have bought an iron bridge across the Delaware at Trenton and have 300 men at work grading between Trenton and Philadelphia."

Trains Still Snowbound.

OMAHA, March 26.—Contrary to reports that the four snowbound overland trains at Ogallala, Neb., had been released special telegrams from that city yesterday afternoon say the trains are still side tracked. The passengers are being well cared for at the hotels and on board the trains. Although the storm has abated somewhat, the wind continues to blow a gale, and snow plows have made little progress in opening the roads. President Burt of the Union Pacific and a party of friends are also blockaded here aboard their private car.

Fire Follows Freight Wreck.

FLEMINGTON, N. J., March 25.—A serious fire, the result of a railroad wreck, visited Glen Garden yesterday and destroyed nearly a dozen buildings, causing a loss of about $60,000. A train of filled oil cars on the Central Railroad of New Jersey parted a short distance outside of the town, and as the first part of the train slowed up in Glen Garden the second section of the train collided with it, exploding the oil. The blazing oil spread to property along the railroad.

A $100,000,000 Increase.

PHILADELPHIA, March 27.—By the largest stock vote ever cast in the history of the Pennsylvania Railroad company the shareholders of that corporation have re-elected the old board of directors and authorized an increase of $100,000,000 in the present capital stock. The number of shares voted was 1,793,442, representing 59.18 per cent, a greater percentage than at any previous election.

Cause of Cancer Discovered.

BUFFALO, March 27.—A special meeting of the faculty of the University of Buffalo was held to arrange plans for a demonstration in honor of Professor H. R. Gaylord of the university, who is said to have discovered the cause of cancer. The faculty will meet at the university on Thursday night, and Professor Gaylord will make known the results of his two years' work in this direction.

Buffalo Bill's Boers Arrive.

NEW YORK, March 27.—Among the passengers who arrived yesterday afternoon on the American line steamer Vaderland, from Southampton and Cherbourg, was Jules Keen of Buffalo Bill's Wild West show, who brings with him 37 persons, including Lieutenant F. A. Vanderloo and 11 Boers of De Wet's scouts, 14 of Colonel Baden-Powell's scouts and nine Cossacks.

THE ALABAMA STORM.

Birmingham's List of Dead Numbers Thirteen—Order Being Restored.

BIRMINGHAM, Ala., March 27.—Under the harmonious working of the state militia and local police force much order has come out of Monday's chaos incident to the fatal storm which swept portions of this city. A careful revision of the death list places the total number of dead in the city at 13, several persons who were missing and had been reported dead having shown up. Two women reported missing at Irondale are believed to be dead under wrecked buildings. If they are dead, this will increase the total to 15.

Thirty-five persons were more or less seriously hurt in Birmingham. Mrs. R. H. Thomas and Mr. W. P. Dickinson, who are at St. Vincent's hospital, are in a precarious condition.

J. Alexander, the merchant reported killed in previous dispatches, was only severely injured. He crawled out of the ruins immediately after the storm and managed to reach home.

The storm destroyed more than 200 homes, the greater part of which were occupied by negro families.

The relief fund raised by the people of Birmingham is growing and has already reached $4,000. Mayor F. Drennen authorizes the statement that the sufferers are not in need of outside contributions. The property loss is placed at about $300,000.

The storm seems to have lifted after leaving Birmingham, and beyond giving Huntsville, Ala., a slight touch did not make itself felt until it passed over into Georgia.

At Chambers, Ga., near Rome, a railroad depot was blown into a creek and washed away. At Rounsaville a big flouring mill was destroyed, together with many thousand bushels of wheat. The handsome residence of the Rounsaville family was wrecked, but no one injured.

The cyclone struck Buena Vista, Ga., at 4 o'clock in the afternoon. The young child of Mr. and Mrs. J. D. Harrell was killed, as was also a negro girl. The home of the Misses Woodall was wrecked and the occupants seriously injured.

At Cartersville lightning struck a schoolhouse, killing two children.

Owing to the tremendous rains the rivers in northern and northwestern Georgia are out of their banks.

In Atlanta at 3 o'clock yesterday morning 1.79 inches of rain fell in five minutes, breaking all records.

NEW YORK LEGISLATURE.

Charter Amendments Not Opposed. The Governor's Vetoes.

ALBANY, March 27.—The proposed amendments to the charter of New York city will probably be made with the full consent of the Tammany delegation in the legislature and the consent of Mayor Van Wyck, so that the bill will not be vetoed and the legislature will not be required to pass the bill a second time. This will mean an earlier adjournment of the legislature.

The joint executive session of the two committees on cities last night to discuss the proposed charter changes was marked for its cordiality among the members, and the intimation was plainly given that Governor Odell desired the Democratic minority to be satisfied and that the charter should be arranged so that the mayor should not veto it.

There is some little divergence of opinion over the question of two years or four years as the term for the mayor, but it will probably be made two years, for while Tammany and Mayor Van Wyck are not known to have agreed to it they have made no objection.

Representatives of many charitable and religious orders appeared before the assembly committee on taxation and retrenchment yesterday afternoon in opposition to Assemblyman Davis' bill amending the tax law relative to exemptions of religious and similar property in certain cases.

Nine vetoes in 24 hours is the remarkable record of Governor Odell. Five were sent in Monday night, and four more came in yesterday morning.

No Coal Strike Likely.

NEW YORK, March 27.—The coal operators in this city agreed that a strike of the Pennsylvania coal miners is improbable to say the least. A strike is not thought of by them, according to the statements that were made by the representatives of the coal companies. President Mitchell of the United Mine Workers would not dare to order a strike, it was said, because the consequences would be too serious. It was said by several coal operators yesterday morning that Mr. Mitchell did not come here to threaten the operators with a strike. He came, they said, to ask the operators to recognize the union and that only. This was added to the demands that the miners made last November and is a demand by the union rather than by the men. It is quite plain, too, that the demand by the union for recognition will not be acceded to.

Death In a Tunnel.

SEATTLE, March 27.—The first serious accident in the new Great Northern tunnel which was opened for traffic about three months ago took place Monday night and resulted in the death of Engineer W. W. Bradley from suffocation from the poisonous gases in the tunnel. His fireman, Joseph W. Smith, and five other trainmen were overcome, but recovered soon after getting to the open air. The train, which was east bound, became stalled in the middle of the tunnel. The fumes of the engine filled the place, and the men were forced to lie on the floor of the tunnel for safety.

May Reverse Kentucky Cases.

FRANKFORT, Ky., March 26.—It is rumored here that decisions will be handed down by the court of appeals reversing both of the cases of Caleb Powers, under life sentence, and Jim Howard, sentenced to death, for the murder of William Goebel. The cases have been under submission in the court of appeals since last fall, and it is said the court has been considering the cases for a week.

Lawson Breaks All Records.

BOSTON, March 27.—Thomas W. Lawson has established a new record as a horse show exhibitor. He has made 136 entries for the coming Boston horse show, entering 52 different horses. This is the largest exhibit ever made by an individual in this or any other country.

The King Going to Denmark.

LONDON, March 27.—King Edward will go to Copenhagen next week, where he will remain for the birthday anniversary of King Christian, Queen Alexandra's father, on April 8. Afterward the king will visit his sister, Empress Frederick, at Friedrichshof.

BOERS GOING NORTH

Lord Methuen Waging an Active Campaign.

CONSTANTLY ENGAGED WITHOUT LOSS

Delarey's Plan to Concentrate a Superior Force and Attack While British Were Incumbered Fell Through.

CAPE TOWN, March 27.—Nearly all the invading Boer commandos are now endeavoring to get to the north, as the Orange river is again fordable at almost any point.

Lord Methuen has been very active recently and from a British standpoint has done a lot of good work. He has been constantly engaged in minor skirmishes and so far as reported has not had a single casualty for several weeks, while the Boers have had an average of three killed daily.

On the occasion of the fight near Wolmaranstadt the Boers had an elaborate scheme to concentrate a superior force against Methuen while his column was incumbered with prisoners, cattle, etc. Methuen was too quick for General Delarey, who arrived late, and the plan fell through.

LORD METHUEN.

Small parties of Boers are concentrating near the boundary of the Cradock, Middleburg and Graaf Reinet districts, in Cape Colony. It is said that their object is to terrorize the British inhabitants.

There were two deaths from the plague in the hospital Monday. Seventeen patients have been discharged as cured.

Colonel Harry McCalmont, M. P., who has been fighting with his regiment in South Africa, will sail for England today.

It is understood that the Cape government will endeavor to retain 4,000 town guardsmen as a permanent militia force. The town guards will shortly be disbanded.

British Troops Captured.

LONDON, March 27.—The Cape Town correspondent of The Daily Express reports the capture by 100 Boers of 130 colonials in a rocky defile near Richmond last Thursday. He asserts that the colonials lost 13 men before they surrendered, adding that they were all liberated after having been stripped of their accouterments. The Daily Express prints a rumor that Sir Alfred Milner is dissatisfied with his qualified authority and has asked the government to give him "either a free hand of no hand." Mr. Chamberlain is said to have replied that it would not be advisable to dissociate the authority of Sir Alfred Milner from that of Lord Kitchener, and the rumor goes that Sir Alfred contemplates resigning. "It is an open secret," says The Daily Express, "that Sir Alfred Milner has long chafed at having Lord Kitchener at his elbow to check or modify his proposals."

Kruger Coming Next Month.

PARIS, March 27.—Le Raphel gives space this morning to the following remarkable communication from Amsterdam: "Mr. Kruger will sail for the United States next month, on the invitation of the American pro-Boer committee, to give a series of lectures. The committee hopes to collect $50,000,000 and to form a volunteer flotilla with which to transport men and ammunition to the Transvaal."

General French's Success.

VRYHEID, March 27. — General French, with Dartnal's and Pulteney's columns, arrived here Monday, having killed, wounded or captured 1,200 Boers. He has also taken 7 cannon, 1,000 rifles, 1,800 wagons and 226,000 head of horses, cattle and sheep.

Attorney General Griggs Resigns.

WASHINGTON, March 25.—Attorney General Griggs has handed his resignation to President McKinley, to take effect on March 31. He will be succeeded by Philander C. Knox of Pittsburg, unless something occurs between now and next Saturday to change the mind of the president. The present understanding of the members of the cabinet is that Mr. Knox has been definitely decided upon and that his appointment will be announced late in the week. If this programme is carried out, Mr. Knox will be able to take charge of the department of justice as soon as Mr. Griggs relinquishes his office. Attorney General Griggs will leave Washington next Saturday to resume his residence in New Jersey.

Father Kills His Children.

CLINTON, Me., March 22.—Jacob Dearborn Marr, a farmer, living eight miles from this village, killed his three children, Alice M., aged 13; Elwin, aged 9, and Helen, aged 7, with an ax shortly after the family, in happy mood, had risen from the dinner table. Mr. Marr had been despondent for some time, but his actions were not such as to make his wife believe that he had any serious trouble on his mind to brood over.

Kruger to Visit Us.

LONDON, March 25.—The Geneva correspondent of The Daily Mail says it is reported there that Mr. Kruger, if his health permits, will visit the United States next month.

Australia's Great Wheat Crop.

MELBOURNE, March 23.—It is officially estimated that the wheat yield will reach 17,790,576 bushels, or an increase of 2,852,628 bushels over last year's yield.

Want Game Laws Changed.

The many subordinate granges throughout Pennsylvania will petition the governor and the state legislature to give the land owner fuller control over his premises with reference to killing and trapping game. It is contended that the land owner should have first right. The game seasons being short, the agriculturist oftimes is busy engaged with his work, and consequently the "sportsman" captures all the game. At the same time this "sportsman" parades over the cultivated grounds of the agriculturist at his own will and frequently does considerable damage. The memorial asks that hunting on cultivated grounds be made permissible only when written consent is given by the owner. The complaints set forth in the petition are correct and will be favored by every land owner and true sportsman.

Lumber Supply Nearing Its End.

The American Lumberman publishes some figures which should stir congress and state legislatures to prompt action touching the preservation of American forests. They ought also to move owners of forest lands to consider whether self interest would not require them to take steps to prevent the destruction of their industry.

In 1890 the states of Michigan, Wisconsin and Minnesota produced 8,597,000,000 feet of pine lumber. Since then the product has steadily declined and in 1900 was but 5,485,261,000 feet. During the last two yearsprices of lumber have been high, and there has been every inducement for the mills to turn out a heavy product. Every resource has been strained, but without avail. The trees could not be found. The end of the white pine industry of the northwest is almost at hand. The years of its greatness are already passed.

While the destruction of the forests in the states named has perhaps been more rapid than elsewhere by reason of the proximity to markets and favorable shipping facilities, all forest sections of the country are suffering irreparably from the woodman's ax. Chief Geographer Gannett of the United States geological survey, from the best data obtainable, estimates the total stand of timber throughout the United States at 1,380,000,000,000 feet. In 1890 the cut was about 25,000,000,000 feet, and since that time it has steadily increased throughout the country at large, though decreased in some sections by reason of the practical exhaustion of the supply.

At the present rate of consumption the available supply will last not to exceed 50 years and perhaps not so long as that. The present generation is likely to feel the pinch of scarcity. Aside from the meteorological influences of land denudation and its effect upon the water courses there is shameful waste of natural wealth which is justly a part of the heritage of coming generations. The preservation of the yet remaining forests is one of the most important matters to which legislators, state and national, can direct their wisdom and energy.

Another Fine Volume.

Standard books are ever welcome when they come to us in forms and bindings representing all the embellishments of the art of bookmaking. Such a book is "Our New Possessions," published by the Dominion Co., Chicago, a copy of which has just come to our desk. The contents are well arranged, the illustrations are fine, the print is clear and neat and the binding is superb. The Dominion Co. is forging ahead as the leading western publishing house making a specialty of fine subscription books. Having salespeople in nearly every nook of the country, the company enjoys a large and growing trade. As this company has a known reputation for liberality towards its agents and fair treatment of them, an agency in this community for the above book, or some other published by this company, would be a source of considerable profit to the one fortunate enough to secure it. Interested readers should write the company for full particulars.

Her Impetuosity was Costly.

A good story comes from Pittsburg. A young man in wondering what he should give his sweetheart for a Christmas present, sent her a sandwich containing four ten dollar gold pieces. His sweetheart became angry on the receiving of the sandwich and threw the same into the fire. When the messenger boy told the man what had been done with the present he rushed over and pulled the precious metal from the fire. The coins were sent to the Treasury Department to be redeemed.

The Coal Output.

The anthracite production for February last was 4,098,000 tons or 900,000 more than was produced in the same month last year notwithstanding many collieries were handicapped by the drought last month. In February 1899 the production was 2,810,000.

The following letters are held at the Bloomsburg, Pa., postoffice, and will be sent to the dead letter office April 9, 1901. Persons calling for these letters will please say "that they were advertised March 26, 1901":

NEW JERSEY LEGISLATURE.

Annual Session Closed—Important Measures Passed.

TRENTON, March 23.—The final adjournment of the one hundred and twenty-fifth New Jersey legislature took place about 11 o'clock last night, although the nominal hour for the dissolution of the assembly was fixed for 3 o'clock. Just before that hour the hands of the clock in the two houses were set back, and the passage of bills continued until nearly 6 o'clock, when a recess was taken in order to give the governor an opportunity to consider the bills that had passed both houses, but had yet failed to receive his signature. The governor this year carried out the policy which he inaugurated two years ago of signing no bills after the legislature had finally adjourned.

Among the important measures that were enacted by the present legislature were the antispring election bill, the congressional redistricting bill, the bill appropriating $50,000 for the preservation of the Palisades, Assemblyman Lewis' pure food bill, the bill placing the members of the state board of arbitration on a per diem basis, the bill authorizing the governor to appoint commissions to change the ward lines of cities, the Trenton armory bill, the bill providing for two additional vice chancellors and the resolution providing for constitutional amendments, reorganizing the judiciary system of the state and providing for biennial sessions of the legislature.

Another important action of the legislature was the diversion from the surplus of the state treasury of $800,000 to be used toward reducing the state school tax this year and a like amount for the same purpose next year.

MRS. NATION IN OHIO.

Cincinnati's Mayor Gets a Strong Denunciation.

CINCINNATI, March 27.—Mrs. Carrie Nation began the day by attending early mass at the Roman Catholic cathedral, though she is not a communicant of that church.

Mrs. Nation called on Mayor Julius Fleischmann at the city hall in the afternoon and scolded him for operating a distillery here. On her arrival the mayor greeted her cordially and asked her if he could do anything for her. She said: "Yes. I want you to give me some advice as to how to close the hell holes in this city. You will never die well as long as you are a man who manufactures intoxicating drinks. You will have some serious questions to answer when you face your God. I can do no more than warn you, and that I must do."

For 20 minutes the mayor listened to perhaps the strongest denunciation that a chief executive ever received in his own office. When she had finished, Mayor Fleischmann remarked blandly: "I am sorry that we cannot agree. I am afraid you have struck a hard proposition—the mayor of a wicked city and a whisky manufacturer. I am glad to have met you and hope that you may do much good."

From the mayor's office Mrs. Nation called on Chief of Police Deitsch and asked him to send her an escort for her slumming. He assured her that she should have an officer, and as she left she said, "Goodby, and if I don't meet you in this world I hope to see you in heaven."

Boston Building Collapses.

BOSTON, March 27.—A three story brick building in process of construction in Roxbury which had been completed as far as the roof collapsed yesterday. The building inspector found the construction faulty and ordered the building to be pulled down. No workmen were in the building when it collapsed.

Rich Discovery of Coal.

CUMBERLAND, Md., March 26.—There is much excitement at Cherry Run, W. Va., on the Baltimore and Ohio railroad, 60 miles east of Cumberland, over the discovery of a rich vein of anthracite coal at the depth of 87 feet while boring a well on the Anderson farm.

Exports of Merchandise.

NEW YORK, March 27.—The exports of merchandise from the port of New York for the week ending yesterday were valued at $10,069,656.

Why a Woman

Is Able to Help Sick Women When Doctors Fail.

How gladly would men fly to woman's aid did they but understand a woman's feelings, trials, sensibilities, and peculiar organic disturbances.

Those things are known only to women, and the aid a man would give is not at his command.

To treat a case properly it is necessary to know all about it, and full information, many times, cannot be given by a woman to her family physician. She cannot bring herself to tell everything, and the physician is

MRS. G. H. CHAPPELL.

at a constant disadvantage. This is why, for the past twenty-five years, thousands of women have been confiding their troubles to us, and our advice has brought happiness and health to countless women in the U.S.

Mrs. Chappell, of Grant Park, Ill., whose portrait we publish, advises all suffering women to use Lydia E. Pinkham's Vegetable Compound, as it cured her of inflammation of the ovaries and womb; she, therefore, speaks from knowledge, and her experience ought to give others confidence. Address Mrs. Pinkham's Laboratory, Lynn, Mass.

THURSDAY, MARCH 28, 1901.

The Pennsylvania Commission to the Pan-American Exposition at Buffalo have decided to erect a State building at a cost of $15,000 on the Exposition grounds, where Pennsylvanians can rendezvous.

Hon. Fred Ikeler was placed on unimportant committees of the Legislature at the opening of the session, as were all Democrats opposed to the machine. His ability however has already commanded attention, and he was recently placed on the Judiciary General, and Ways and Means Committees to fill vacancies caused by the resignation of Representative Chew.

Luckiest Man on Earth.

The friends of Col. James M. Guffey, of Pittsburg, Pa, are loud in their claims that he has already claimed his right to be called the luckiest man in the world. At any rate he has dazzled the eyes of the oil field speculators with the success and daring of his operations. His latest strike is the big oil gusher at Beaumont, Texas, which is now spouting a fortune in oil every day. How he happened to get possession of that bonanza illustrates the luck which has followed most of his operations. One day last summer there was a letter in his mail from a man in Texas, of whom he had never heard before. The letter stated that the writer had 15,000 acres of land in Jefferson county, Texas, under oil leases. He had no idea whether there was oil under the ground there or not, but had hopes. He would like Col. Guffey to go in with him and bore a trial well. Col. Guffey wrote the enterprising Texan to get leases on 30,000 acres, when he would help him. The bargain was made and the first well bored at Beamont, 200 miles from any producing oil well, has already produced oil worth $150,000. In the same lucky way Col. Guffey has been instrumental in developing producing wells in California, Mexico and West Virginia. He is also said to have successfully backed his luck in natural gas and silver mining ventures.

An Indemnity for All Soldiers Lost.

In figuring up the indemnity which this Government will demand of China as a result of the Boxer outbreaks claims will be included, for the loss of life in our army, navy and marine corps, incident to the operations of the American forces in the empire. It has been figured out at the war Department that in the army two officers and 30 enlisted men were killed in action, 16 died of wounds received in action, 45 died of disease and two met their death by accident, while seven officers and 170 men were wounded. In the marine corps 25 officers and men were killed in action, and 77 were wounded.

It could not be learned what amount of compensation would be demanded of China for the loss of life in the American expedition. It is believed that if the indemnity ever is obtained from the Chinese government the amount allowed on this score will be distributed among the families of deceased soldiers and marines. These claims will be in addition to the general claim for the cost of Chinese expedition. The total indemnity, it is admitted, will be in the neighborhood of $25,000,000.

REDEEMING THE STAMPS.

Amount Needed Will Approximate $12,900,000.

The War Revenue Reduction Act becomes operative on July 1 and the Internal Revenue Bureau has issued this statement:

"All documentary and proprietary revenue stamps in the hands of purchasers on and after July 1, 1901, should be presented for redemption to the collector of Internal revenue from whom they were purchased, who will supply the applicant with necessary instruction for preparation of his claim. Regulations will be issued for redemption of imprinted documentary stamps without requiring the destruction of the checks or drafts on which they are imprinted."

DOCUMENTS AND CHECKS.

Officials familiar with the subject estimate that of the classes of stamps for document, checks, etc., from which the tax was entirely removed redemptions may aggregate $1,000,000, and possibly a little less. This is based on the assumption that the public will have on hand on July 1, a month's supply.

Articles upon which the tax was reduced represent a much larger sum, but in those cases the redemption will be in the nature of an exchange, although these stamps, like the others, probably will be redeemed in cash. Other stamps, made to conform with the reduction in the rate of tax, will be immediately issued, so that the net loss to the Government will not be very large.

WILL PAY OUT $12,000,000.

On the basis of users having a month's supply of stamps on hand on July 1, 1901, it is estimated that redemptions will approximate the following amounts: Checks and drafts, $600,000; documents, $409,000; proprietary, $400,000; tobacco and snuff, $3,500,000; cigars and cigarettes, $2,000,000; beer, $6,000,000. Total, $12,900,000.

TURN THE TRAITORS OUT.

It is hoped that the attempt now in progress to re-organize the Democratic State Central Committee in the interest of Senator Quay will be defeated. It is not to be understood that the present organization of that committee is in that interest, for we believe that Chairman John S. Rilling is both honest and sincere in his political convictions and actions. But there was a meeting of the Democratic State Executive Committee in Harrisburg the other day and according to the *Star Independent* of that city, of the eight members present four were fresh from the Quay lobby in the Legislature. There was Donnelly, of Philadelphia; Love, of York; Garman, of Luzerne; and Ancona, of Berks. The present plan of these political hucksters is to elect one of their number chairman of the State Committee.

If this is done the Democratic party might as well go into voluntary bankruptcy. Grover Cleveland in a letter recently written to a Democratic club in Baltimore, declared that if the Democratic party would restore itself to usefulness it must first make itself thoroughly Democratic and deserve the confidence of the people. In this State the Democratic vote has been diminishing year after year. It is the custom of superficial observers to say that this diminution in strength is the result of differences of opinion among Democrats on the currency question or some other party tenet or dogma. There have been such differences, no doubt, and they may have impaired the voting strength of the organization to some extent. But the great enervating influence is in the fact that the rank and file of the party has had no confidence in the personal and political integrity of the so called leaders and the organization has been corrupt.

But the attempt to prostitute to the base uses of Quayism was never made so boldly as it is being made now. Ryan and Donnelly, of Philadelphia, have been hewers of wood and drawers of water for Quay for six years and have been ready and willing to perform any menial service for him at any time since the legislature of 1897 spread political pestilence throughout the State. Lemon Love, of York, used all his influence to induce the imbecile Members of the Legislature to vote for Marshall for speaker and thus guarantee the election of Quay. Garman, even while he was chairman of the Democratic State Committee, was a pensioner of the Quay machine, and has lost no opportunity since to serve that master of and Ancona, a cheap recruit of the traitorous combination, has been doing his best to earn the favor of the corrupt boss ever since the present session of the Legislature was organized.

Shall the Democrats of Pennsylvenia submit to such an outrage upon their party principles and political integrity? We sincerely hope not. The calamity can be averted if the Democrats are just to themselves. Let them rise in their indignation and hurl the traitors out of the organization absolutely. There is no peril to the organization in such a course. The party will lose nothing by throwing such men out. They rarely give their own votes to the candidates and deter thousands of honest men from going to the polls. Therefore let every Democrat who is opposed to so gross a betrayal of faith demand that the representatives in the State Committee, outside of those tainted with treason, vote to turn out the traitors at the re-organization on April 17th, and they will succeed in electing an honest chairman.—Bellefonte *Watchman*.

WASHINGTON.

From our Regular Correspondent.

Washington, March 25 1901.

President McKinley, Senator Hanna, and Representatives Dick, and Grosvenor got their heads together this week and arranged Republican State convention of Ohio Of course, the Ohio Republicans will thank these gentlemen for having relieved them of all responsibility in the matter of nominating a State ticket, thus enabling them to turn the convention into a ratification picnic. It was decided that the entire State ticket, except Lieutenant Governor Caldwell, should be renominated. He will be turned down because his being the attorney for the State Liquor Dealers Association has got him the enmity of the temperance element. Senator Foraker was not a party of this White House conference, but he dropped in while it was going on and asked whether the bosses intended to have the State convention endorse him for reelection. They assured him that it was, knowing that the Republicans would have no votes to spare in Ohio this year and that Foraker had following enough to make trouble if he was antagonized; Mr. Foraker then left the Ohio big four to complete their programme.

The deadlock of the powers, in Pekin, on the question of the amount of indemnity that shall be demanded of China, is causing the administration to realize that it has been placing to much confidence in Li Hung Chang, that crookedest of all Chinamen. Commissioner Rockhill has asked for new instructions and the administration is in a quandary as to what to say to him.

The death of Hon. Mark S. Brewer, member of the Civil Service Commission, added to President McKinley's worries by making another desirable vacancy for him to fill and the republican bosses to fight over. So many of the high-salaried positions will be retained hold-overs that the fight is extraordinarily bitter over everything in sight. This has been shown by the cat and dog scrapping over the U. S. Commissionerships of the St. Louis Exposition, and the office of Commissioner of Patents, which Mr. Duell has resigned.

In discussing another matter, in a private conversation, a prominent Senator incidentally said of a matter that has been more or less talked about in Washington, the administration's favorite for the Republican nomination in 1904: "President McKinley is now serving his second and last term, and everybody is casting about to decide the all important question of his successor. In the Senate there are various gentlemen in whose bonnets the bee is buzzing, but it is evident that the Senator who at present has the best chance of being nominated is Fairbanks, of Ind. Of course it is too early to attempt to positively pick the winner, but of the Senatorial candidates Fairbanks seems to be the coming man. He is generally regarded as the administration candidate, just as his wife was when she was so easily elected to the office of President of the Daughters of the American Revolution. Everybody who has an axe to grind has an eye on Fairbanks, and is trying to get "next" to him.

An official of the state Department said of Senator Morgan, whom he had just met leaving the private office of Secretary Hay: Senator Morgan is a wonderful man, and you can depend upon it that he will have ground broken for an American Isthmian canal before he leaves the Senate. I have heard some criticism of his constant talking for the Canal, and this reminds me of a Western Senator who blurted out in the cloak-room on the Republican side of the chamber that Morgan is dinging on the Canal again. He was immediately snapped up by one of the oldest men in the Senate, also a Republican, who said: Don't you worry about Morgan dinging. We laughed at him when he dinged on Hawaii, and he got Hawaii. We laughed more when he dinged for years on Cuba, and we have just about got Cuba. We are laughing now because he is dinging on the canal, and you can depend upon it we'll have a canal. If there were more dingers and fewer ringers in the Senate we would accomplish more.

Senator Bacon started this week for the Philippines, where he intends to personally acquaint himself with conditions on the island. The information he obtains will be utilized by the Democrats at the next session of Congress. As he is a close observer and hard to fool, he will be apt to find out just how things are before he leaves the islands.

The plan of having Rear Admiral Sampson's profile on the medals that are to be prepared by the Navy Department, in accordance with an act of Congress, for presentation to the men who participated in the battle of Santiago, has, it is thought been headed off. The storm raised by the announcement of the plan frightened its authors.

Secretary Root has found out that the politicians have no monopoly in the job of worrying him over army appointments. More than five hundred preachers are after the twenty-three new chaplaincies in the army, which carry the rank of captain and a salary of $2,000 a year and which can be made sinecures if those who hold the commissions are so disposed, and they and their preacher friends are making life a burden for Mr. Root. About every known sect and denomination is represented among those five hundred hungry applicants, and some of the denominations are fighting each other as viciously as rival factions of a political party ever did over the distribution of patronage.

Enormous Crop of Oranges.

CHICAGO, March 22.—Officials of the Santa Fe railroad today confirmed reports from California that millions of dollars' worth of oranges in that state are rotting in the packing houses and on the grounds of the groves because of lack of transportation facilities to move the enormous crop.

Cyclone In Ohio.

TOLEDO, March 26.—Reports received here state that a terrible tornado passed through the outskirts of Sandusky, wrecking houses and doing much damage.

Coated

Look at your tongue. Is it coated?

Then you have a bad taste in your mouth every morning. Your appetite is poor, and food distresses you. You have frequent headaches and are often dizzy. Your stomach is weak and your bowels are always constipated.

There's an old and reliable cure:

Don't take a cathartic dose and then stop. Better take a laxative dose each night, just enough to cause one good free movement the day following.

You feel better the very next day. Your appetite returns, your dyspepsia is cured, your headaches pass away, your tongue clears up, your liver acts well, and your bowels no longer give you trouble.

Price, 25 cents. All druggists.

THE COLUMBIAN.

BLOOMSBURG, PA.

THURSDAY, MARCH 28, 1901

Entered at the Post Office at Bloomsburg, Pa. as second class matter, March 1, 1888.

PICTURESQUE BLOOMSBURG.

For several months past there has been in course of preparation a book which is intended to show the beauties of our town, and which will make a handsome souvenir of Bloomsburg. It is printed on heavy enameled paper, and contains seventy half-tone cuts of good size, including pictures of the Court House, Town Hall, High School, Normal School, Water Works, County Prison, Churches, Residences, Factories, Street Views, Market Square, Business Blocks, Fair Grounds, and many other views. It has been compiled and prepared at considerable labor and expense, believing that the book will be sufficiently appreciated so that the publication will not prove a financial loss, at least. Many other towns have similar books, and this work has been undertaken in order that Bloomsburg may not be behind other places.

The book is bound in two styles, one being a stiff cover of silk cloth, lettered in gold leaf, price $1.00. The other is a card board cover, handsomely printed in red and gilt, stapled through the back so the book will open flat, price 75c.

The book is for sale at THE COLUMBIAN office, and only a limited number have been printed. An early order will secure a copy.

It is the effort of this office to keep up-to-date. Eight new fonts of job type and five of wood letter have just been added to our jobbing department. Styles change in type as in everything else, and hence a progressive office must keep constantly adding to its assortment.

Trout fishermen are beginning to be a little apprehensive as to the probable condition of the streams, when, about a month hence, the trout fishing season opens up. A winter so nearly devoid of snow and rain storms as this one of 1900-1901 threatens streams dried up and trout in poor condition from lack of food. Of course, the month of March may work wonders but at the present few fishermen can recall the time when things look as unpromising as they do now.

A good game of basket ball was played at the Normal Gymnasium last Friday night between the Wheelmen's team of this town, and the Danville team, the former winning by a score of 26 to 20. The Wheelmen realized thirty-five dollars, which will be added their library fund.

Robert R. Dent, employed at Gidding's store, was granted a patent for his cuff holder, and received the papers on Monday. His invention is a good thing, and ought to prove a paying article. Arrangements have been made with a manufacturing house to make the goods, and they will soon be on the market.

The large warehouse of C. A. Edson at Benton was burned down on Monday morning about five o'clock. It was a two story frame building, and contained farming implements and machinery nearly all of which was destroyed. The loss is estimated at $2.000 with partial insurance. The origin of the fire is not known.

Here's the way editor Newell, of the Dushore *Review* lets his subscribers know that he is perfectly willing to sign his name to a few receipts:

"A good friend wants to know what writer's cramp is, and if we ever had it. Why, bless your soul, we've got it this minute, and have had it bad for years. It is simply being cramped for money, and pretty much all newspaper men are chronically afflicted. The death of a rich uncle is the only positive cure, though the payment of arrearages on subscription gives relief. Can't you relieve us a little?"

We have a slight touch of the same kind of cramp ourselves, notwithstanding that little fable about a refrigerator a couple of weeks ago.

Rheumatism.

Nobody knows all about it; and nothing, now known, will always cure it.

Doctors try Scott's Emulsion of Cod Liver Oil, when they think it is caused by imperfect digestion of food. You can do the same.

It may or may not be caused by the failure of stomach and bowels to do their work. If it is, you will cure it; if not, you will do no harm.

The way, to cure a disease is to stop its cause, and help the body get back to its habit of health.

When Scott's Emulsion of Cod Liver Oil does that, it cures; when it don't, it don't cure. It never does harm.

The genuine has this picture on it, take no other.

If you have not tried it, send for free sample, its agreeable taste will surprise you.

SUPREME IN ITS BEAUTY

PAN-AMERICAN EXPOSITION TO BE A MAGNIFICENT SURPRISE.

Birdseye View of the Great Group of Splendid Architectural Works—A Wonderful Setting of Fountains, Pools, Plants and Flowers.

It is promised for the Pan-American Exposition that it will surpass in beauty any previous exposition in the world's history. It is also expected that it will outrival its predecessors in many other ways, for at no time have such wondrous achievements in all arts, such perfection in the hundreds of trades, been attained. But the purpose of this article is to treat, in a general way, of the plan of the Exposition, the symmetry of arrangement and the exterior beauty that represents the careful expenditure of several millions of dollars. Accompanying this article is a birdseye view of the Exposition plot, showing the magnificent work in its complete state. The view is from the south and shows an area one mile and a quarter long and half a mile wide, there being 350 acres in the inclosure. In the immediate foreground is a portion of Delaware Park, one of the famous beauty spots of Buffalo. The view shows the Park Lake, with the North Bay at the left, and in the left foreground, south of the bay, may be seen a portion of the Albright Gallery of Art, a beautiful permanent building of white marble, the gift of John J. Albright of Buffalo, and costing over $400,000. North of the Bay is the New York State Building, also a permanent structure of marble. These two buildings are in the style of Greek temples, one containing reminders of the Parthenon and the other resembling somewhat the Erechtheum upon the Acropolis at Athens.

Between the North Bay and the Lake the City of Buffalo has built at large expense a new and beautiful bridge of heavy masonry, known as the Bridge of the Three Americas. This bridge carries the broad thoroughfare which leads from the main southern entrance to the approaches of the Exposition, as seen in the foreground just north of the Lake. On the northern shore of the Lake is situated the life saving station erected by the Federal Government where daily exhibitions will be given by a crew of ten men showing the uses of modern life saving apparatus as employed upon our coasts. Hidden from view, upon the southern bank of the Lake, a beautiful casino and boathouse has also been built by the City of Buffalo for Exposition uses.

The symmetrical grouping of buildings will be at once noted by the observer. Beginning at the formal approach, just north of the Lake, the eye follows northward between two rows of ornamental columns to what is known as the Forecourt. East of this are the State and Foreign buildings, forming in themselves a very interesting feature of the Exposition. Near these also are the buildings for the special ordnance displays representing the products of several hundred manufactories in this line of work. West of the Forecourt will be the outdoor horticultural displays and the Women's building. We cross now the Triumphal Bridge, which will be remarkable for its tall piers, richly ornamented with statuary, the product of the genius of Karl Bitter, the director of sculpture, and other famous sculptors. On either side are the Mirror Lakes which form a part of the Grand Canal, more than a mile in length, which surrounds the main group of buildings.

We come next to the Esplanade, which is nearly two-fifths of a mile long and 450 feet wide. The western end of the Esplanade is inclosed by the Horticulture, Graphic Arts and Mines buildings. The eastern end is shut in by the Government group of three large buildings. Sunken gardens with elaborate fountains and many groups of sculpture occupy the two arms of the Esplanade, and the decorative features throughout this broad space are very numerous and beautiful. North of the Esplanade is the Court of Fountains, with the Ethnology building on the right and the Music building on the left. Two subordinate courts also open into the Esplanade from the north, the one on the right being known as the Court of Cypresses and the one on the left as the Court of Lilies. Next, north of the Ethnology building on the right and fronting upon the Court of Fountains, is the Manufactures and Liberal Arts building and on the opposite side the Machinery and Transportation building. In the Court of Fountains is a large pool, having an area of about two acres and containing many beautiful fountains. Proceeding again northward we come to the Mall, a broad avenue, half a mile long, extending from the eastern boundary to the western gate of the Exposition. Fronting upon the Mall on the right is the Agriculture building and on the left the Electricity building. We now arrive at the most conspicuous feature of the Exposition, the massive Electric Tower, 391 feet in height. This tower stands between the Court of Fountains and the Plaza, in a broad pool, about two acres in extent. This will be the most ornamental feature of the great Exposition and will be the centerpiece for special and elaborate electrical illumination. Immediately north of the Electric Tower is the Plaza, with its beautiful sunken garden and bandstand in the center, the Propylaea or monumental entrances at the north, the entrance to the Stadium on the east and the entrance to the Midway on the west.

It should be understood by every intending visitor that the Exposition will present the most beautiful spectacle that twentieth century genius can provide. By day there will be a most pleasing display of floral and fountain effects. The many buildings, with their elaborate and delicate tracery of ornamental plastic work and their radiance of color, the many groups of statuary in every part of the grounds, will constitute a picture never before paralleled. At night all the buildings will glow with the soft radiance of thousands of electric lights, making a scene of unrivaled brilliance and splendor. Half a million lamps will be used in the electrical illumination.

It should also be added that the Midway at the Exposition will be the most extensive and novel that has ever been prepared. It will be 3,000 feet long, having more than a mile of frontage. Over 30 very interesting features, many of them covering several acres, will make up this gigantic collection of wonders.

The athletic features of the Exposition will be shown in the Stadium, which covers about ten acres of ground and contains a seating capacity for more than 12,000 people. All of the exhibit buildings will be filled to completion with the very latest products of Pan-American genius and industry and will offer an opportunity for every inquiring mind to learn a most interesting lesson of New World progress and civilization.

The power for Exposition uses is furnished principally from Niagara Falls, which are situated only a few minutes ride from the Exposition grounds. Buffalo is a city of nearly 400,000 population and is preparing in every possible way for the reception of millions of visitors in 1901.

EXTENSIVE EXHIBITS TO BE MADE AT THE EXPOSITION.

Achievements of Women Will Be Shown Side by Side With Those of Men at the Pan-American—Handsome Building For Headquarters.

With a view to having the scope of the Pan-American Exposition as broad as possible and to interest the thousands of women in the Americas in the enterprise a Board of Women Managers was appointed, consisting of 25 representative women of Buffalo.

In addition to this the governors of the states and territories were asked to nominate two women each to act as honorary members of the Women's Board, these nominations to be ratified by the Board of Directors of the Exposition. The same request was made of the other Pan-American countries.

As a result of this request from the Exposition more than 30 states have honorary members of the Women's Board, and several Pan-American countries are also represented. The work of the honorary members supplements that of the local Board, which has been divided into committees and is now doing effective work for the Exposition. A distinctive point in the plan of the Exposition is that the various industries conducted by women are to be represented by exhibits in the different buildings where they may properly be placed, so that the achievements of women will be shown side by side with those of men. This is the first Exposition in this country where such a plan has been followed and second, it is said, in the world. The same arrangement was followed most successfully at the Paris Exposition.

It is in co-operation with the various divisions of the Exposition and with the committees of the Men's Board of Directors that the Board of Women Managers of the Pan-American Exposition is, to a large extent, to work. The following committees have been appointed: Executive, Entertainments and Ceremonies, Fine Arts, Education, Clubs and Organizations, Publicity and Promotion and Applied Arts. The majority of the members of each committee belong to the Board of Women Managers, but in a few instances appointments have been made outside, taking in those especially adapted to carrying out the work of the Women's Board. To the committee on Entertainments and Ceremonies falls the pleasant task of looking after the social affairs of the Women's Board previous to and during the Pan-American Exposition, arranging entertainments of various kinds for the honorary members of the Board who visit Buffalo, and also entertaining many prominent women who are to be in the city during the Exposition months. A large number of conventions of women are to be held in Buffalo during the Exposition, but the Women's Board will not in any way be connected with the conventions, although the committee on Entertainments and Ceremonies will doubtless entertain many of the officers and other distinguished members of the various organizations meeting in the city Pan-American year. The women of Buffalo have in several instances extended invitations to leading women's organizations to hold their conventions in Buffalo during the Exposition, and, with the desire to offer every courtesy possible, the committee on Entertainments and Ceremonies will doubtless do a great deal to make it pleasant for the visiting women during their stay in Buffalo.

The committee on Fine Arts of the Women's Board, in co-operation with a similar committee from the Men's Board of Directors, will assist the Director of Fine Arts in arranging for a representative exhibit at Buffalo of the work of American artists.

The committee on Education will arrange for a series of educational exhibits, and possibly educational congresses will be held in Buffalo during the Exposition. This committee is working in co-operation with the Superintendent of Liberal Arts and Education. As the chairman of the committee on Education of the Women's Board is president of the Women Teachers' Association, which owns its building, a commodious chapter house, she will doubtless do a great deal toward arranging for a series of educational congresses in Buffalo during the Exposition, although the work will not be taken up by the Exposition Board.

Women's clubs and organizations have made tremendous progress during the past few years, and the committee on Clubs and Organizations of the Women's Board will find ample opportunity for bringing into prominence the work of the women's clubs of the Americas, especially showing the tremendous advancement made since the World's Fair in Chicago in 1893.

In response to many requests from women's clubs the committee on Publicity and Promotion of the Women's Board has been doing a great deal of effective work in advertising the Exposition. At several women's conventions representatives of the Women's Board of the Pan-American Exposition have appeared upon the programme and have interested in this way hundreds of leading clubwomen in the country. Great enthusiasm is shown by the clubwomen of the United States and Canada in the coming Exposition, and in many towns Pan-American clubs have been formed by the women.

The committee on Applied Arts of the Women's Board is trying to secure representative exhibits of women's work at the Pan-American Exposition and with this object in view hopes to arrange a series of collective exhibits in the Exposition buildings, principally in the division of Manufactures. Many leading industries conducted by women will probably be represented in these collective exhibits. Applications for space have been received in large numbers.

A great deal of effective work has been done through the honorary members of the Women's Board, with whom local members have been in constant correspondence, with the result that the women of the Americas are deeply interested in the Exposition and in many instances are arranging for bringing large parties to Buffalo. Some clubs have formed Pan-American Bureaus with a view to securing large numbers to go from their respective towns to Buffalo.

Although the women are to have no building for exhibits at the Exposition, a women's headquarters on the grounds is to be one of the most attractive structures there. It is well situated, facing one of the main entrances to the Exposition grounds on one side and the beautiful music gardens on the other. It is opposite the New York State building. The house was formerly the home of the Country Club of Buffalo and is a very artistic structure. It has been remodeled to meet the requirements of the Women's Board during the Exposition. Broad verandas surround the house. A large room on the main floor will be fitted up for a magazine and reading room, where clubwomen visiting the Exposition grounds will find a comfortable and quiet resting place. The offices of the Women's Board will also be on the main floor, and there will be a number of small rooms where luncheons may be served. For larger entertainments the magazine and reading room will be used and will therefore at times necessarily be closed to the public. Dressing rooms and other apartments necessary to the comfort and convenience of visitors at the Women's Building will be arranged for on the second floor of the clubhouse.

TRAVEL AND STUDY CLUBS.

Formed In the United States and Canada For a Visit to the Pan-American Exposition.

No one of experience needs to be told how much more pleasant traveling and sightseeing is with agreeable companions than all by oneself. There is truth in the saying that "a pleasure shared is a pleasure doubled." The fact that it is well to know beforehand something of the nature of what is to be seen and how to get about with the smallest loss of valuable time and inconvenience and get intelligent ideas is equally appreciated by those who have wandered from their own firesides in search of pleasure. It has been the experience of thousands of visitors to Expositions that loneliness, though in the midst of great crowds, robbed them of much of the enjoyment in store and that by reason of not acquainting themselves in advance with what was to be seen they missed the things which might have appealed to them strongest.

In view of all this, the plan of forming travel and study clubs by those who intend visiting the Pan-American Exposition at Buffalo next Summer which has been adopted in many cities and villages of the United States and Canada may be said to be an excellent one. The membership of these organizations is composed of people of both sexes and all ages practically. The objects are pleasant companionship, arrangements for transportation and accommodations and an intelligent and comprehensive view and knowledge of the Exposition. The course of study taken up comprehends everything in connection with the trip and the Exposition and side trips as well. Among the subjects are the following:

Routes and Rates.

City of Buffalo.

Countries of the Western Hemisphere and the New Possessions of the United States, (a) Geography, (b) History, (c) Resources.

Pan-American Exposition, (a) Object, (b) Arrangement of Buildings and Courts, (c) Meaning of the harmonious architectural, sculptural, floral, horticulcural, fountain and electrical effects, with reference to illustrating the progress of the race, (d) exhibits, (e) amusements.

Niagara Falls, (a) Natural Wonders, (b) Power Development.

Much of the information necessary to this course of study is furnished by the Bureau of Publicity of the Pan-American Exposition, Buffalo, while the remainder is procured by the clubs from Railway and Steamship offices, hotels, information bureaus, libraries and elsewhere.

This study at any time would be very interesting and valuable, but with the prospect of amplifying it with a visit to the Exposition, where the peoples of the different countries and the varied resources of the Western Hemisphere will be assembled, amid splendors such as were never before presented to the sight, the measure is largely increased.

American Forestry.

Indigenous trees are easily recognized by the observing inhabitants of any locality as belonging to certain general classifications. Pine, oak, elm, maple, chestnut and some others are so common in most temperate climates that they are familiar to every one. That these distinct divisions have been subdivided into hundreds of minor classifications is not so well known.

It will be in the province of the exhibit at the Pan-American Exposition to demonstrate in this connection some exceedingly interesting peculiarities or seeming mistakes in nature.

The biggest things in the way of guns ever built will be exhibited at the Pan-American Exposition.

MAMMOTH TURBINES.

Six New Ones For the Niagara Falls Power Company.

A new feature of much interest has been added to the delights Pan-American crowds will have when they visit Niagara Falls to view the scenic and industrial attractions there. In that favored spot there is already developed more power than is used in many of the large cities, but to this developed force must be added 30,000 horsepower that is to be developed by means of six new turbines and six new generators, the contracts for which have been awarded. These new turbines are to be installed in the new wheel pit now in course of construction. The design of the new turbines will differ materially from the design of those now in use in the present wheel pit. This change is significant of the fact that the Niagara Falls Power company intends that the installation in its new plant shall be up to the highest state of perfection known in this opening year of the century. It is this knowledge that at Niagara the most modern, the most perfect working power development in the world, may be seen that will inspire visitors to the Exposition to go there and look upon the wonders that man has wrought.

Each of the six new turbines will have a capacity of 5,000 horsepower, and each will be connected to and drive a 5,000 horsepower generator. The turbines now in use were designed by Piccard, Pictet & Co. of Geneva, Switzerland, while the new turbines are to be built after designs prepared by Escher, Wyss & Co. of Zurich, Switzerland, the plans of which company were accepted in a competition. The turbines in the old pit each have two wheels, while the new turbines are each to have but a single wheel.

With these new turbines in place in the wheel pit, the output capacity of the Niagara Falls Power company will be 80,000 horsepower. There will be space in the new pit for five additional turbines, each of 5,000 horsepower capacity, and with these in place the total output of the two pits will be 105,000 horsepower.

WATER SPECTACLE.

BEAUTIFUL FOUNTAIN EFFECTS FOR THE PAN-AMERICAN.

Unexampled Sights to Be Provided For Visitors to the Exposition. Will Use 35,000 Gallons of Water Per Minute For This Feature.

When visitors to the Pan-American Exposition view the fountain diplays, they will be inclined to wonder where all the water comes from, so plentiful will be the supply. It will be with these fountain displays the same as it will be with the electrical exhibit. There will be a point, a place, at which the display will increase in beauty and extent until the climax is attained in and about the Electric Tower and the basin thereof. So extensive will this be that all will recognize the beauty of the display and look in wondering admiration upon the spectacle, which is destined to be one of the most remarkable features of the Exposition.

The pumping plant that will supply the water effects will be located in the Court of the Machinery and Transportation building. It will consist of 12 pumps having a total capacity of 35,000 gallons of water per minute.

The engines are all to be belted to their respective pump units, and they will be required to be in service from 10 o'clock in the morning until 11:15 o'clock at night, a period of 13¼ hours. Estimating their capacity at 35,000 gallons of water each minute, it is evident that each day during the time they are to be in service they could pump the enormous amount of 27,825,000 gallons of water. This water will be used to serve the fountain displays at the Electric Tower and basin and also the Court of Fountains, including the Fountain of Abundance. The water will be taken from an intake located at the north end of the Court of Fountains basin through a 48 inch suction pipe. It will be delivered by the pumps through 16 inch and 20 inch pipes at a pressure of 110 pounds per square inch to the fountain orifices. From these orifices the water will stream in all shapes from the finest spray jet to the solid stream inches thick that will rise high in the air.

At the Fountain of Abundance the sight will be all the name implies. There will be an abundance of water, and it will be in motion. Beyond the Fountain of Abundance will be the Court of Fountains, and this basin will be filled with large jets of water thrown vertically. They will be known as pillar jets. In this basin will also be located beautiful groups of water figures, all formed in the manner in which the water is projected. The water figures will resemble sheaves of wheat, lilies, etc., and they will average 12 feet high. On a line through the center of the main Court of Fountains there will be all of 20 of each of these figures of surpassing beauty.

Beyond this still, at the north end of the Court of Fountains, will be the Genius of Water. Here in a significant group of statuary the sculptor will portray his artistic conception of what the figure is designed to represent. Over in front of the statuary the water will ebulliate, carrying out in most perfect way the sculptor's idea.

In front of the Electric Tower, in the basin and in the niche of the Tower the climax of spectacular water effects will come with a gorgeousness that will exceed any display of the kind the world has seen. On each side of the center of the structure will be located two groups of water jets, with 26 large pillar jets, throwing water columns to a height of 50 feet. On the arc of a circle, whose center is the niche, will be located some 42 large jets, throwing water in parabola curve toward the cascades in front of the niche. These jets will be so arranged as to make a very ragged stream. This stream will not be solid, neither will it be so broken as in the spray jets. Then out from the niche itself there will come a flood of water of 13,000 gallons per minute, which, by means of a deflector, will take the form of an immense water screen or veil, the beauty of which will linger in the memory.

CYCLING ROUTES.

Will All Lead to Buffalo Next Summer.

For the accommodation of the large number of cyclists who contemplate touring awheel to Buffalo and the Pan-American Exposition and Niagara Falls next summer a series of "trunk line" cycling routes is being compiled. They will probably be as follows:

1. New York and Albany to Buffalo (via the Hudson River, the valley of the Mohawk and the cycle paths of Central and Western New York).

2. New York to Buffalo (via the Delaware Water Gap, Scranton, Elmira, Corning and the cycle paths of the Southern tier of counties).

3. Boston and New England points to Buffalo (connecting with Route No. 1 at Albany).

4. Boston and New England points to Buffalo (via Providence, New London, steamboat to Greenport, Long Island; cycle paths of Suffolk County to Brooklyn, connecting with Route No. 1 or 2 at New York).

5. Washington, Baltimore and Philadelphia to Buffalo (connecting with Route No. 2 at the Delaware Water Gap or Scranton).

6. St. Louis and Chicago to Buffalo (via Toledo, Cleveland and Erie). The road from Erie to Buffalo along the south shore of Lake Erie, through the Grape belt, has been called the finest 100 mile straightaway in America.

7. Chicago and Milwaukee to Buffalo (via steamboat across Lake Michigan to Grand Haven, Detroit, through Canada, Niagara Falls).

8. Cincinnati to Buffalo (connecting with Route No. 6 at Cleveland).

FLOODS IN MICHIGAN

Grand River at High Water Mark and Still Rising.

MANY FACTORIES FORCED TO SUSPEND

Dams Swept Away in Many Places by the Raging Waters, and Great Damage Done to Farm Property.

GRAND RAPIDS, March 27.—Grand river has reached the high water mark of 1893, 12 feet 6 inches, and is rising an inch an hour. The Rouge, Flat and Thorn Apple, three big tributaries, are pouring a swollen flood into the Grand. All the factories along the canals in this city have been shut down, and their basements are flooded. A portion of the Ninth ward is flooded. The Pere Marquette railroad bridge is in danger, the water being nearly level with the stringers. Hundreds of acres of lowlands along the river north and east of the city are flooded, but as yet no buildings are reported moved from foundations, although many are partially submerged. Croker Hook, a tributary of the Grand north of the city, is out of its banks.

The big dam owned by the Foster-Winchester company at Solcums, behind which was stored more than 1,000,000 gallons of water, gave way, and the roadbed, ties and tracks were torn out for a considerable distance. The water flooded the camp and did great damage along the course of the creek. The Grand Rapids and Indiana railroad men are watching Cedar river at Cedar Springs very closely. The stream is very high and is reported to be rising, but the bridge is still above the water. Near Kinney, on the Grand Rapids and Iowa, the water is up even with the ties.

At Iona the Grand river rose 20 inches yesterday and is still rising. All the railway bridges are being carefully watched. Portions of the city are four feet under water. Three dams along Maple river went out, and the dam at Kidderville also gave way, doing great damage to farmers.

The St. Joseph at Danger Point.

DETROIT, March 27.—A special from Niles, Mich., to The Free Press says: "The St. Joseph river is higher than it has been for several seasons, and the water is dashing over the dam in torrents. In consequence of the high water mills No. 1 and 2 of the Niles Board and Paper company and French's pulp mill have been obliged to close down, and 200 people are temporarily out of employment. Weavers island is entirely inundated, and the house on it is standing in water. The lower South Bend road just above the mills is overflowed to the depth of several feet, and it is impassable."

Platt Forced to Yield.

NEW YORK, March 25.—Senator Platt has given out the following statement: "The general opinion of those at the conference held yesterday at the Fifth Avenue hotel was that the police conditions existing in New York ought to have the attention of the legislature, but that it would be useless to pass any bill, as the governor has declared that he would veto it. Some of those present favored a state police law and others favored a metropolitan district, but it was conceded by all that nothing should be done at present. I regret the situation, as I believe that some action by the legislature is important for the city and the Republican party, and I think that such will be the general public opinion soon. But if nothing is to be done and if the present bad conditions are to be submitted to, the legislature is not responsible for that. If it turns out in the next municipal election that the judgment which I have formed upon this subject has been wrong, then I shall be glad that Tammany has been left in control of the police."

A Mother's Terrible Deed.

COLDBROOK, Mass., March 22.—Mrs. Lizzie Naramore, while in a fit of insanity, killed her entire family of six children at her home, a farmhouse half a mile from this village, and then tried to take her own life. The children ranged from 10 years to a babe of 10 months, and their lives were taken by the mother with an ax and a club. Then she laid the blood drenched bodies on the beds, two on one bed and the other four on a bed in another room. This terrible sight met the eyes of the husband and father, Frank Naramore, when he returned home late yesterday afternoon. Mrs. Naramore then attempted to take her own life by cutting her throat with a razor, and when discovered she was in the bed on which the bodies of the four children were lying. Although she cut a deep gash in her throat and suffered the loss of much blood, it is believed she will recover.

New Army Ration Approved.

WASHINGTON, March 27.—President McKinley has approved the new army ration prepared under the direction of General Weston, chief commissary. The principal change is in the increase of the sugar ration, being 20 pounds to each 100 rations instead of 15 pounds as heretofore. The vinegar component, which was 8-25 of a gill, is changed by allowing half that amount in cucumber pickles when desired. In the fruit component 1 2-5 ounces of jam is allowed for the field ration in place of 1 3-5 ounces of dried or evaporated fruit, which is the allowance for the garrison ration. A change is made in the travel ration by allowing the canned tomatoes to be served on the first day instead of the fourth as heretofore.

A Chance For Settlers.

WASHINGTON, March 27.—About 24 whole and fractional townships embraced in what is known as the Methow valley, Washington, and within the Washington forest reserve, probably will be detached from that reserve and opened to settlement in a few months. The commissioner of the general land office has recommended to the secretary of the interior the elimination of this area of about 107,840 acres from the reserve. These lands have been carefully examined by government forestry officials and found to be more suitable for agriculture than for forestry reserve purposes.

Sight Restored After Many Years.

BALTIMORE, March 22.—Valentine Botz of Buffalo has had sight restored to him as the result of a surgical operation performed in this city after having been totally blind for 28 years. Mr. Botz is 32 years old and had been blind since 4 years of age from the effects of smallpox, which left him with spots on his eyeballs.

CUT HERSELF TO PIECES.

Amputated Toes, Ears and Nose With Pair of Scissors.

TOLEDO, March 25.—Mrs. G. Brunschneider, residing near the city limits, occupies a ward at St. Vincent's hospital and is in a serious condition as a result of horrible injuries self inflicted.

Armed with an ordinary pair of scissors she cut off all the toes of her left foot, both her ears close to the head and about an inch of her nose. She then cut out a portion of her right cheek, inflicted five gashes in the left cheek and finally began on her arms. Beginning at her left forearm, she removed every vestige of skin, laying bare the muscles. She also lacerated the right arm in a horrible manner.

Pearls From New York Streams.

NYACK, N. Y., March 25.—Pearls to the value of $1,500 have been found in the Hackensack river at Orangeburg, Rockland county, within the last three or four weeks, and a number have also been taken from mussel shells at West Nyack. Several men have taken up the occupation of pearl hunting in the localities.

A lazy liver may only be a tired liver, or a starved liver. A stick is all right for the back of a lazy man. But it would be a savage as well as a stupid thing to beat a weary man or a starving man because he lagged in his work. So in treating the lagging liver it is a great mistake to lash it with drastic drugs. In ninety-nine cases out of a hundred a torpid or sluggish liver is but a symptom of an ill-nourished body, whose organs are weary with overwork. Let your liver alone. Start with the stomach and its allied organs of digestion and nutrition. Put them in proper working order, and see how quickly your liver will be ome active and energetic. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the bloodmaking glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

A REMEDY FOR THE GRIPPE.—A remedy recommended for patients afflicted with the grippe is KEMP'S BALSAM, which is especially adapted for the throat and lungs. Don't wait for the first symptoms of the disease, get a bottle to-day and keep it for use the moment it is needed. If neglected the grippe has a tendency to bring on pneumonia. KEMP'S BALSAM prevents this by keeping the cough loose and the lungs free from inflammation. All druggists sell KEMP'S BALSAM at 25c and 50c. 3-14d4t

Idleness quickens the perception. The man out of work will grasp any situation.

PILE TERRORS SWEPT AWAY.—Dr. Agnew's ointment stands at the head as a reliever, healer and sure cure for piles in all forms. One application will give comfort in a few miuutes, and three to six days' applications according to the directions will cure chronic cases. It relieves all itching and burning skin diseases in a day. 35c. 40

RIGHT UP TO DATE.

(Benson's Plaster is Pain's Master.)

These are days of records and of the beating of records. Benson's Porous Plaster, for quickness of action and thoroughness of cure, has no records to beat except its own.

Benson's Plaster, always the best, always the leader, is to-day *better than ever*. It sticks to the skin but never sticks in its tracks. It marches on.

The people not only want to be cured but cured *quickly*—and Benson's Plaster does it. Coughs, colds, lumbago, asthma, bronchitis, liver and kidney complaints, and other ills approachable by an external remedy, yield to Benson's as icedoes to heat.

Neither Belladonna, Strengthening or Capsicum plasters are to be compared with Benson's. People who have once tested the merits of Benson's Plaster have no use for any other external remedy.

More than 5,000 physicians and druggists (and a thousand times as many non-professional persons) have called Benson's Plasters one of the few (!) home remedies that can be trusted.

Fifty-five highest awards have been made to it in competition with the best known plasters of Europe and America. Better proof of its merits is inconceivable. Be sure to get the genuine.

Literary Notes.

In variety and value of contents "McClure's Magazine" for April will be a notable number. Timeliness, literary worth, historical researches, analysis of character, studies in natural history, and life next to the soil, in the metropolis, in the Orient, all these and more will distinguish the forthcoming issue, and it will be adorned throughout with illustrations contributed by the best artists and reproduced with the extreme of skill in art-process.

A vivid light will be thrown on the actual moral status of the police in New York City by Josiah Flynt's article to appear in "McClure's" for April, under the title "York," a Dishonest City." The present agitation of this subject attaches particular interest to the contribution, while the manner in which the famous author has gained his materials—by close association with the criminals themselves—will make his conclusions of extraordinary value.

"The Story of the Beaver," told by William Davenport Hulbert, in the April issue of "McClure's," will give a complete and sympathetic account of an animal concerning which very little is commouly known. Many and elaborate pictures will complete this interpretation of the beaver's life.

Ida M. Tarbell will tell in "McClure's" for April of "The Disbanding of the Confederate Army," an article of strongest interest and, too, of historical importance. "Walks and Talks with Tolstoy," by Andrew D. White, Ambassador to Germany, will give a realistic picture of the great Russian genius. "Ploughing," by Martha McCulloch-Williams, will describe with delightful sympathy a day among fields and furrows in the South. In fiction this number will contain matter of striking excellence. An installment of "Kim," by Rudyard Kipling; a story of amusing imagination in childlife, by Josephine Dodge Daskin; a brilliant narrative of a Wall Street deal, by Edwin Lefevre; and other stories. The illustrations will be remarkably abundant and of great merit. Among the artists who will contribute are Edwin Lord Weeks, Lockwood Kipling, Maude Cowles, Orson Lowell, A. Radclyffe Dugmore, F. Y. Cory, Frederick Dorr Steele, and W. R. Leigh.

The April "New" Lippincott.

The April "New" Lippincott Magazine opens with a Complete Novel, as usual. This month it is a stirring detective story by Mrs. Schuyler Crowninshield, wife of Admiral Crowninshield, which keeps the reader guessing up to the final pages. "Mysterious Miss Dacres" is the title, and Josephine Dacres, the heroine, well deserves the designation. Among other things which puzzle her landlady is Josephine's undeviating habit of walking on the grass beside the path,—never on the path itself,—but this is only one of many of her pecularities, though it is a straw in the wind which points in the right direction. With a good strong plot to start with, Mrs. Crowninshield makes the most of striking situations and sprinkles plenty of humor through her diverting story.

Cyrus Townsend Brady's College Tale (fourth in the series) takes up the seasonable subject of hazing at Annapolis. It is called "A Hazing Interregnum," and is as full of sport and as clever as anything which even this popular writer has published.

"The Enterprise of Flora," by Francis Gribble, a leading English author, is really a brilliant little romance which opens in a dancing academy and ends—where many romances do not,—but to mention the place would be to tell Mr. Gribble's story.

Adachi Kinnosuke, the American-Japanese who writes such beautiful love-tales of his native country, contributes "A Cherry-Bud in a Foreign Hand." This is an idyllic, pathetic story of a young Japanese girl named "O Tome" and an American artist, who together "fanned away two summers and were too much in love to think of marriage."

"The Last Sonata," by Clinton Dangerfield, is a story of gold mining in the west, short but thrilling.

Of timely papers there are two: "Bees in Royal Bonnets," by Felix L. Oswald, M. D., a timely anecdote article on the subject of Royal peculiarities, and "Our Village Improvement Society," by Eben E. Rexford, giving practical suggestions for bettering, by united effort, the appearance of out-door surroundings. Coming from this authority, such advice cannot fail to be helpful to those who are striving to make suburban life beautiful.

Charles G. D. Roberts contributes a charming April poem called "The Pipers of Pools;" Madison Cawein a sonnet, "The Bluebird;" Florence Earle Coates a glad welcome to spring called "Persephone;" and Edmund Vance Cooke, "The Final Choice."

The "Walnuts and Wine" department this month overflows with original matter in lighter vein, both of prose and verse.

The Light of the World

—OR—

Our Saviour in Art

cost nearly $100,000 to publish. Contains nearly 100 full-page engravings copied direct from the World's Greatest Paintings of our Saviour and His Mother. Contains History of Painting, Biography of Painter, and the Galleries in Europe where the Original Painting may be seen. The most beautiful publication ever issued. The strongest hearts weep at the sight of these wonderful pictures of Jesus and His Mother. Everybody says they are grand, sublime, matchless, magnificent, beautiful, inspiring and uplifting. The sale is unprecedented. The presses are running day and night to fill the orders. Twelve carloads of paper were required for the last edition. Small fortunes are being made by the thrifty with this marvelous work. Contains also a Child's story, beautifully written to fit each picture. This wonderful book, matchless in its purity and beauty, appeals to every mother's heart and in every Christian home, where there are children, it sells itself. A Christian man or woman can soon clear one thousand dollars ($1,000) taking orders in this community. Others are doing this. Why not you? We are advertising in nearly 10,000 newspapers in this country, Canada, England and Australia. Shipping books to every English-speaking country in the world. We shall promote our best workers to positions of State Managers, Correspondents and Office Assistants. We also own and publish large Photo-gravure Etchings of the great Paintings in the Galleries of Europe. One or more of these Etchings can be sold in every home. By carrying the book and the engravings your success will be tremendous. Mrs. Waite, of Worcester, Mass., has sold nearly $4,000 worth of books there. Mrs. Sackett has sold nearly $2,000 worth of books in New York. Both of these ladies answered our advertisement, and had never sold a book before. Took 14 orders first two days—H. Colwell. Took 5 orders first day; 23 orders first week, clearing over $50—Hattie Lemwell. Thousands of others like above. It is printed on velvet finished paper; bound in Cardinal Red, Green and Gold, and adorned with Golden Roses and Lillies. Write quickly for terms as the territory is going rapidly. When you prove your success, we will promote you to the position of Manager and Correspondent under yearly contract.

We shall soon move into our new and elegant structure to be occupied solely by us, and to be known as the Light of the World Building.

ROYAL BAKING POWDER CO., NEW YORK.

Selection of Jurors.

Change in the System Made by a New Law.

District Attorneys throughout the State are being notified by the Secretary of the Commonwealth of important changes in the Jury system in accordance with the provisions of the new jury law recently adopted. The new law is known as the McCarrell law and makes radical changes in the selection of juries in the trial of misdemeanors and felonies as well as oyer and terminer cases.

Under the old system twenty jurors were drawn in misdemeanors and felonies and the Commonwealth and defense were each entitled to challenge four jurors and select four from the eight extra jurors if they so desired. Under the new law twenty-four instead of twenty jurors are drawn and each side has the privilege to challenge six jurors.

In the trial of cases classed as felonies under the old law the same number of jurors (twenty), were drawn as in the trial of misdemeanors. Under the new law twenty-eight jurors must be drawn and the Commonwealth and the defense each has the right to challenge eight jurors.

There was really no cause or no demand for a change in the system of drawing jurors in misdemeanors and felonies, and no one in the past has complained of having suffered any injustice under the system. There will be little if any benefit in the increased number of jurors to be drawn hereafter, and if any benefit does exist it will be more than offset in the additional time and delay in the selection of juries.

In the trial cases known as oyer and terminer cases—murder, burglary, manslaughter, arson, rape, etc.—the new law wipes out the right of the district attorney to stand aside jurors and increases the number of challenges of the commonwealth from four to twenty and the challenges of the defense from twelve to twenty. The district attorney is also deprived of the right to stand aside an entire panel when he may have good reasons to believe that jurors in the panel have been seen, or otherwise tampered with. Under the new system if a juror in a homicide case qualifies under oath the district attorney must exhaust one of his challenges if he desires to keep him off the jury. It often happens that a juror in a homicide case answers all questions satisfactorily, but at the same time the district attorney is satisfied that the man is biased or fixed, and could exercise his right to stand him aside. Under the new law this power is wiped out.

YE PARK.

Lo! The Conquering Hero Comes. Retun of the Season's First and Most Substantial Successes, "The Dairy Farm"

Every theatre-goer in Philadelphia will be delighted to learn of the early return of James H. Wallack's elaborate scenic production of "The Dairy Farm," with all the original company scenery and effects, exactly as that attraction was presented at the Chestnut Street Opera House earlier in the season. Manager Nirdlinger will inaugurate the Spring Season at Ye Park theatre on Easter Monday, April 8th, with Eleanor Merron, in the charming rural play, "The Dairy Farm," which was one of the greatest successes of last season, and comes with the prestige of runs of 109 nights in New York and 133 in Chicago. No play has received a greater degree of approval from the best class of theater goers; not only have the critics praised it, but it has won the endorsement of the clergy in every city where it nas been presented, for its healthy moral, its purity of theme, its strength of characterization and the fidelity with which it depicts episodes of pastoral life. The scene is laid in a little village in Northern New York in the decade preceding the Civil War, and the work has been pronounced a perfect picture of the period, a time remote enough to be picturesque, yet recent enough to be remembered with the charm of distance idealizing it, by many playgoers of to-day. The story is extremely fascinating and of great dramatic power. The basis of the plot is the hate of a miserly old man for his neighbor, a country squire of the old school; the mutual love of the niece of one and the nephew of the other, and the tragic revenge of a runaway slave who has been trapped and sold back into bondage in the South by the miser. The slavery question, agitating the country during the campaign that resulted in the election of Franklin Pierce to the Presidency, plays a prominent part in the development of the story, and an old-time political rally, in which the abolitionists and proslavery men are arrayed against each other, forms one of the most thrilling episodes. The costumes of the period are faithfully reproduced, and an entirely new outfit of beautiful and picturesque scenery has been provided for the engagement, which is for two weeks only. Seats are now on sale. 3-28

The Harrison Estate.

INDIANAPOLIS, March 22.—Ex-President Harrison left $40,000 in life insurance. This fact was announced last night by the president of the Union Trust company, which is executor of General Harrison's will. He said: "General Harrison had four policies of $10,000 each in force. The box containing the policies has not been opened yet. Our appraisement of the Harrison estate gives its total value at $380,000. This includes all real estate, railroad bonds, stock in the Union Trust company, the law building here and other securities."

A Million For the Naval Arch.

NEW YORK, March 23.—The city will be asked to appropriate $1,000,000 for the naval arch to be erected in Battery park. This statement is made by Park Benjamin, chairman of the naval arch committee. Until now the committee has been unable to state definitely what the cost will be. Mr. Benjamin says $1,000,000 will cover every expense in connection with building the arch and the beautifying of the park surroundings.

Farmer Robbed and Beaten.

ELMIRA, N. Y., March 26.—The barn of Henry Wright, a farmer residing three miles from Addison, was discovered to be on fire at 7 o'clock last night. He went out to extinguish the flames, when three men set upon him, beat him into unconsciousness and robbed him of $300. He is probably fatally injured.

The Portraits of Our Presidents
With Biographical Sketches
—BY—
General Charles H. Grosvenor.
This page designed by Tiffany.

The Inaugural year, when the public mind is aroused over Presidential questions, is a fitting time to issue General Grosvenor's book. Its sale is already tremendous, and will perhaps exceed that of General Grant's Personal Memoirs

Every Patriotic American desires to read what General Grosvenor has to say of George Washington, Thomas Jefferson, Andrew Jackson, Abraham Lincoln, President McKinley and the other Chief Executives of the Nation. Everybody desires to read what General Grosvenor, the staunch old Republican leader in Congress, will say of that staunch old Democrat, Andrew Jackson, the father of the Democratic party. General Grosvenor has thrown into his sketch of Jackson all the fire and energy of his nature. The biography of Thomas Jefferson is grand. The biography of Lincoln is as beautiful as a sunrise over the hilltops. General Grosvenor has personally known all the Presidents since the time of James Buchanan. The General's book will therefore contain history which has never before been published, written from his own personal observation of these great men. General Grosvenor has served in Congress for nearly twenty years, and he has served his country in war and in Congress for nearly forty years. The book contains twenty-four large Photogravure Etchings as fine as Steel Plates, printed by hand, on heavy plate paper made especially to order. These 24 Photogravure Etchings are in different tints, and are well worth $2.00 each. These Portraits are made from the Paintings endorsed by the family and near relatives of the Presidents. Two years' time and a fortune have been expended in securing these reproductions. The complete book is well worth $50.00, but the price has been placed so low that the most humble American citizen can own it. The biographical sketches are printed in large open type in two colors; the work is so beautiful that when people see it they want it. The advance sale is very large. President McKinley was the first subscriber. There is one edition known as The President Edition de Grand Luxe, initial letters hand painted, portraits hand colored, title page hand illuminated, registered and numbered; subscription price, $250. Orders and applications for territory are coming in rapidly. A high class man or woman of good social standing can soon make a small fortune taking orders in this community. Send references and apply for terms quick, as the territory will all be assigned soon. Address

Brave Young Man.

"I must speak to your father about our engagement to-night," said he, boldly.

"But papa's in Philadelphia, George," she answered.

"All the more reason why I should speak to him to-night. I'll use the telephone."—Yonkers Statesmen.

SHERIFF'S SALE.
